

Jafar Mohammed

INFORMATION TECHNOLOGY GRADUATE

Nationality: Ethiopian | Status: Single | Gender:
Male

Email: jafarmohamed501@gmail.com

Phone: +251 942419800

Location: Addis Ababa, Ethiopia

PROFESSIONAL SUMMARY

Result-driven and highly analytical Information Technology graduate with a comprehensive foundational background in software systems, systems infrastructure, and data analytics. Proven academic excellence with strong practical capabilities in relational database management, structural systems deployment, and network security architectures. Exceptionally adaptable team player fluent in multiple languages, looking to leverage advanced technological and operational design competencies within a globally competitive IT environment.

EDUCATION

BSc Degree in Information Technology

2025

Werabe University — Werabe, Ethiopia

- Academic Excellence: Achieved a Cumulative GPA of **3.46**.
- National Qualifications: Scored **78%** on the Comprehensive National Exit Examination.

Preparatory School Certificate (Grades 11-12)

2019 – 2022

Bako Preparatory School — Bako, Ethiopia

Secondary School Education (Grades 9-10)

2017 – 2019

Bako Secondary School — Bako, Ethiopia

Primary Education (Grades 1-8)

2009 – 2017

Bako Primary School — Bako, Ethiopia

ACADEMIC PROJECTS

Class & Exam Scheduling System

Capstone / Academic Project

Lead Developer / Systems Analyst

- Designed and engineered an automated scheduling framework optimized to allocate academic spaces, class timetables, and examination periods efficiently while avoiding resource conflicts.
- Utilized core relational database structures to manage student cohorts, course catalogs, and faculty distribution mappings under modern IT infrastructure models.

CORE QUALIFICATIONS & AREAS OF EXPERTISE

- Database Management:** Practical knowledge in designing, managing, and running complex queries using SQL database engines such as MySQL and Oracle.

- **Systems Analysis & Design:** Competent in handling system integration pipelines, mapping corporate workflows, and prototyping architectures via UML structures across the SDLC.
- **Programming Languages:** Core engineering knowledge in building logical applications and task automation scripts using Python, Java, and C#.
- **Project Management Frameworks:** Well-versed in tracking milestones, production timelines, and budgets via Agile, Scrum methodologies, and MS Project toolsets.
- **Data Analytics & Visualization:** Adept at uncovering organizational insights and building operational dashboards utilizing Excel, Power BI, and Tableau configurations.
- **Cybersecurity Fundamentals:** Up to date on securing critical modern workflows, practicing data integrity principles, and evaluating operational digital surface threats.
- **Networking & IT Infrastructure:** Strong background dealing with infrastructural logic including custom firewall rules, routine topologies, and general TCP/IP structural maintenance.

TECHNICAL SKILLS & LANGUAGES

Software & Tools:

Microsoft Office Suite, Advanced Excel (Data Architecture), PowerPoint, Power BI, Tableau.

Professional Capabilities:

Punctual, analytical problem solver, fast adapter, strategic thinker, and collaborative team dynamics.

Core Communications:

Active listening, technical reporting, cross-functional team alignment, and technical communication.

Languages & Proficiency:

- Afan Oromo — Native / Bilingual Proficiency
- English — Professional Working Proficiency (Fluent)
- Amharic — Professional Working Proficiency (Fluent)
